

YMCA Camp Willson
Outdoor Education
Teacher quotes 2007

Program

Good academics

Character values are all around camp.

Hands on and visual aides are great tools!

Classes easily keep students' attention; students inactive for less than 15 minutes at a time during hour class.

Ohio Content Standard objectives for 6th grade were met.

Small group work is important to teambuilding.

This was good review of vocabulary and prior knowledge.

Wide variety of activities, classes always moving

Activities promote team building and ideas of conserving our natural resources.

Classes incorporate math and social studies vocabulary

Our kids from previous years still want to come back.

Community atmosphere

What a variety, both in teaching presentation and the topic of the class.

Everything was organized and on time.

Students are actively involved in the learning and everyone feels welcome.

Staff

The staff was extremely professional when they were being fun and when they were giving serious instruction

The staff were very friendly and creative. They let teachers join in activities.

Students are actively involved in the learning – the hands on activities and the enthusiastic staff – makes everyone feel welcome

The staff is excellent – they did well with urban students

The staff obviously love what they do, and share their enthusiasm with our students. They always teach with energy, humor, and patience.

Staff showed patience with special needs children.

Food

Many healthy choices

Kid friendly

Homemade, yum

Thank you for accommodating special dietary needs.
